FEBRUARY 1994 UPDATE .

Richard has written to local quarries asking to enter any finds that they make before they fill them in again, as they often tell us about them after the fact. NO reply's yet.

The TRUTH of who did what in Robin's Dubb has finally been put right in a letter printed in Descent. It was our Keith and his friend Stuart Byatt who extended it first, NOT The Universtiy of Leeds.

Please find overleaf a warning on the missuse of P,hangers.

Keith, our training officer is up to a lot of good things with a friend in the Peak District, can't say more yet, but it will mean a great deal of notoriety for Keith and this club, so watch this space, speaking of Keith being up to things, he has made a training wall in his garage and I know some of you have been over and enjoying it, one member in particular now talks in a higher pitched voice, as he put is harness on the wrough way round (ouch!!) do you think he may be training to become the new Pavarotti?

Alan Radford is in the proccess of making a climbing wall in his garage too Will let you know when it's ready.

Die Jobling is coming home from the U.S.A. for a 2 week holiday at the end of March and wants to do lots of caving while he is here so get ready as he will do anything.

YOUR NEXT MEETING AT THE NEW TAVERN IS SAT 12th MARCH AT 8.30pm THIS MEETING IS OUR A.G.M.

PLEASE note this is also a change of date as it has been brought forward one week.

See you then Lyn.
