

Scarborough Caving Club

Report for September 1994

We have a potential new member from New Zealand, Laurence Dickinson, who is an experienced caver, but has not caved in the cold wet conditions over here, is he in for a shock!!

A report of our new digs has been sent to Descent, and will appear in a future issue.

Silpho Quarry cave does not belong to Lord Derwent, he wrote back personally, to say it belonged to the Duchy of Lancaster, so I have written to them.

Still no word yet from the National Park Committee regarding access to the Windypits, Catscar, Whinstone mine etc.

Cave Safe 3 has been sent for. Anyone wishing to borrow the series of videos should get in touch with Lyn.

James Hands (SPROG) is getting married on the 10th December, and the Club has been invited to the evening do. Therefore the December meeting is being rearranged, (the photo comp), this will give you longer to get your entries in. Further details about the wedding later.

The trip to Swaledale mines will have to put off until the 19th or 26th of November as Mike is unavailable until then, I will release the date for this popular trip as soon as possible.

We are going to have an Auction of caving gear, books, bit & peices, in fact anything to do with caving, so if you have any gear you dont want, and are prepared to take a few bob for it, or if you require any items but cant afford the shop prices, then please give your support to this. The date will be the February meeting at the New Tavern. there will be a small amount of club gear for auction, and as I have never run a auction before, I need a volunteer, or lots of advice as to how to do it!
