

Scarborough

Caving Club

6th April Meeting 1996.

6 members present.

As there only 11 fully paid up members this will be the last set of minutes the rest of you will receive. Club membership is £20 and the club desperately need the funds to replace old equipment. Those of you who are still wanting to be members please come forward as soon as possible, thank you.

Over the past few months it has been noticed that the permit trips have been poorly attended. The permits have all been arranged at the request of members and now that the weather is improving we are expecting more people to attend. We are especially wanting those people who requested the permits to attend. Swinstow Hole a non-permit 9th March was well supported with 7 people turning up who split up and did both a pull through and SRT trip. The Gillgarth Cave trip 24th March was also well supported. Although Gillgarth Cave was not done a good trip was had in Upper / Lower Long Churn and November Hole and again 7 people attended.

The clubs digging projects in the area are progressing well. A new dig, Blacksmiths Mine at Birtley Farm home of Birtley Iron Mine requires more help as there is a lot of dirt to be moved before the mine is accessed. Kirkdale Cave dig is progressing well unfortunately there is a problem with pirating, if anyone knows who is pirating this dig please contact Jerry this is imperative as the area leading to and around the dig is very unstable and liable to collapse. Does anybody know who is or has dived in Bog Hall Rising if you do please contact Jerry.

As there was a good response to the Crackpot cave novice trip of January another one has been arranged for the 4th May, this is the day of the next meeting but as it is a short trip there should not be any problems. The Bull Pot cleanup weekend is now also going to be used as a training weekend for those who wish to take part. We need as many people as possible to attend. Also needed for the cleanup weekend is an 'A frame' or similar to enable the hauling of rubbish out of the pothole.

One of the local pubs in Wrelton has challenged the club to a Pool and Darts Night which will take place in Wrelton on Saturday 18th May (to be confirmed), sandwiches are going to be provided. We need 9 people for the team.

*Secretary, Mark Rowe, 27 Burniston Gardens, Burniston, Scarborough, North Yorks, YO13 0JW
