

Scarborough

Caving Club

8th June Meeting. 1996

7 Members Present.

This months meeting was yet another short one the main issue of the day was should the club increase the length of time between meetings as at present there is very little to report and very few members regularly attend. It was decided that we would continue as normal in the hope that prospective new members will make the meeting worth while. Next meeting July 6th.

Due to several rumours floating around regarding the clubs welcome at our present venue it has been suggested that we give thought to looking for a new meeting place. At present we have had no official complaints but their appears to be a definite group of people who believe we have no right to meet in the New Tavern.

The Bull Pot clean up weekend was a limited success. Many members and non members turned up for the weekend but due to a mix up in communication Jerry and two non members were the only ones who did any of the cleaning, which understandably did not make Jerry very happy especially when all the ropes were dumped outside his van for him to take home and wash. Other than the caving mix up the weekends other events were a great success ie. the piss up in the pub!!

As there are few easy / novice trips arranged for the next few months would members planning such a trip please ring round to let other people know of the possibility of a trip. At present we have approximately 6 prospective new members and to keep them interested we need to have more trips for them to participate in.

The club still needs a tacklemaster as Jerry and Sue require the space in their house for a new bundle of joy arriving shortly. Anyone who feels they have the required level of care and attention for the job and the necessary space please come forward.

Forthcoming Events.

- | | |
|---------------|--|
| Sat 29th June | mining with mike mitchel - Possibly Great Ayton area. Please ring round. |
| Sat 6th July | Meeting & Gowerdale Windypits. |
