

Scarborough

Caving Club

Meeting 11th January. 1997

7 members present.

Meetings are to go back to monthly.

The club now has four new members. Our congratulations and welcomes to ;Louise Atkinson; Andy Brennan; Peter Fambely; Richard Wilsdon.

It was decided at this meeting that the yearly subscription charges to members are to rise with immediate effect. This is due to club funds being low and several expenditures which are going to become inevitable in the forthcoming year eg. several ropes are coming to the end of their safe usage life and will need replacing. Non - member trip fees are also to increase but will still be refundable against full membership. Membership fees are now due and should be paid by the meeting of April 12th.

Charges are now ; £20 per person ; £30 per couple ; £3 per non - member per trip.

On the subject of cash the club has decided to spend some on a cordless 24v Bosh drill for use in digging ie. to drill charge holes when using explosives. The drill is going to be bought in a joint effort by the club and individual members. The club is going to put up half the cost and individual donations from members is going to pay the rest, the drill will remain the property of the club and therefore will be available for use by any member. Also on the subject of cash anyone with any fund raising ideas to boost the clubs balance sheet can contact Carol on (01723) 581828. One suggestion that was made which the club is going to pursue is that of having ticketed Bar-B-Q's.

Jamie our Training Officer has stated that he is available on weekends for climbing wall tutorials where he will teach anyone interested the finer points of single rope technique. Any one wishing to take up this offer you can contact Jamie on (01947) 602135.

Don't forget that Jerry is still the clubs Tacklemaster and anyone who requires the loan of any of the clubs equipment except ladders can contact him on (01723) 354193. People requiring ladders should contact Tony on (01262) 470560.

Due to the failure of the social night with the folks from Wrelton in December a new date for the darts and pool night has been arranged Saturday February 8th. Everyone is welcome whether they are members or not at the New Tavern, Falsgrave.

Scarborough Caving Club is a member of the Council of Northern Caving Clubs

The Annual General Meeting is looming, Saturday 1st March and all members are invited to attend. As with previous years there will be a photo competition held immediately before the meeting. The categories as usual are Best Colour Print, Best Black & White Print, Best Slide and Most Humorous.

Dowson Pot, A Thursday Night Dig by Pete.

The dig is going well, since it was started some four months ago 12 feet of passage has been gained with loads of potential for more. Last Thursday (9th Jan) we blew seven bells out of it. All that's needed now is loads of muscle to pull the 1/2 ton of crap out of the bottom. We're going to give it a miss on Thursday 16th to give Lizard ago 'cos we need to make a report of progress as we need to tell Mr Holt, the person who gave us permission to dig here, the extent of our efforts as promised.

TRAINING OFFICER REPORT
TO ALL MEMBERS

Just a few pointers regarding safety that during 1996 I've noticed some members need reminding about when caving:-

1. When using a carbide lamp it is most important not to scorch/melt the SRT rope for obvious reasons, such as ensueing death for the culprit or an innocent party behind that person.
A great deal of care should be exercised especially at the pitch head when it is all too easy to casually let the flame flick gently back and forth over the rope.
Please exercise great care otherwise if the situation occurs again such lamps may, regretfully, have to be banned.
2. When rigging a traverse line leading upto a pitch head, the rigger should try to ensure wherever possible that the rope between the bolts is fairly tight so that if a member of the party did suffer a fall while attached to the traverse line the shock load transmitted to the knots is minimized as much as is possible as, no matter how slim, there is always the possibility that the rope might snap and that person become strawberry jam.

ie:-

3. Become familiar with your equipment (so to speak!) to the point that you could put your SRT rig on in the dark.
Don't get out over the pitch head and then find you've done it wrong as by then it could already be too late.
Any member not sure about the equipment they already own or may be about to buy need only ask for guidance.
4. All members should carry a plastic survival blanket in their helmets or where ever is convenient.
On club trips, any member found to be not carrying one will **NOT** be permitted underground as it is unfair on the other members of the party who have exercised consideration.
These items only cost £2 to £3, a small price to pay for something that may one day save your life.
5. Cows Tails. Certain members seem to have formed a strange attachment to their cows tails, to the point that they keep them ad infinitum.
This is not a good idea as out of all the pieces of equipment used when caving these are the most critical as its these two small pieces of rope that will hopefully stop you in the event of a fall.
Please replace your old cows tails, preferably once a year. Again, these items are also very cheap, about £5, not that exorbitant.

Hope most of you agree with the above and safe caving.

12 December 1996

Jamie

PS. During xmas to New Year I'm not at work so any members that fancy going to the quarry trainings will give me a ring.

Nomination Form Of Committee Members.

Nominations are required for the 5 posts on the committee. Please bring these nomination forms to the AGM so that a vote can be taken on those nominated. Each nomination must be seconded and you cannot nominate or second yourself. A list of those eligible for election follows with current committee position stated if appropriate. Anyone voted in has to hold a minimum of 1 term of office ie. 1 year.
